## MANAGEMENT DISCUSSION AND ANALYSIS

### 1. Industry Structure and Development

#### (a) Indian Economy

During the financial year 2020-21 Indian economy contracted by 7.3% which was a snowballing result of nation wide lock down imposed by the Central and State Governments to control spread of COVID 19 pandemic, which halted most of the economic activities and caused huge number of job losses with unemployment level rising to almost 14%. Lower disposable income in hands of people meant decline in consumption and lower demand for consumption led products.

Much against the expectations the second wave of the pandemic also turned out to be severe, however the economic impact of the second wave is not likely to be very large. The outlook though remains highly uncertain.

It is expected that once the second wave wanes there will be a V shaped recovery with prospects for robust growth in consumption and investments on the back of massive vaccination drive undertaken by the government,

#### (b) Industry Scenario

According to the FICCI – EY report the Indian Media & Entertainment (M & E) has degrown by almost 24% to INR 1.38 trillion in the year 2020. ### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued there under.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonable ness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

## ANNUAL REPORT 2020-2021

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Emphasis of Matter

We draw attention to Note: 32 to the standalone financial results, which describes that the extent to which the COVID-19 and subsequent wave of Pandemic will impact the Company's results will depend on future developments, which are highly uncertain.

Our opinion is not modified in respect of this matter

## **ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT**

**Referred in paragraph 2(f) under “Report on Legal and Regulatory Requirement” section of our report of even date on the Standalone Ind AS Financial Statement Of Standard Industries Limited**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013**

1. We have audited the internal financial controls over financial reporting of Baba Arts Limited (the “Company”) as of March 31, 2021 in conjunction with our audit of the standalone Ind As financial statements for the year ended on that date.

#### **2. Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **3. Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit.

We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects to the extent applicable.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

#### **4. Meaning of Internal Financial Controls over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company;
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

## ANNUAL REPORT 2020-2021

### 5. Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### 6. Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Note 2: Basis of Preparation

- (a) These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under section 133 of the Companies Act, 2013 ('the Act') read with Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions from the Act. The Company has consistently applied accounting policies to all periods.
- (b) Historical Cost Convention: The financial statements have been prepared on a historical cost basis, except for the certain financial assets and liabilities that are stated at fair value.
- (c) All amounts disclosed in the financial statements and notes have been rounded off to the nearest two decimal digits after thousands as per the requirement of Schedule III of the Act, unless otherwise stated.
- (d) **Significant accounting judgements, estimates and assumptions**

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected. Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities.

#### Critical accounting estimates

##### Useful lives and residual values of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

##### Income taxes

The Company's tax jurisdiction is India and significant judgements are involved in determining the provisions for income taxes including amounts to be recovered or paid for uncertain tax position. Management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits.

##### Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under Note No: (ix)

##### Defined benefit obligations

Defined benefit obligations are measured at fair value for financial reporting purposes. Fair value determined by actuary is based on actuarial assumptions. Management judgement is required to determine such actuarial assumptions. Such assumptions are reviewed annually using the best information available with the management.

##### Fair valuation

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are from observable markets where possible, but where this is not

feasible, a degree of judgement is required in establishing fair values. Changes in assumptions could affect the reported value of fair value of financial instruments

#### **Provisions and contingent liabilities**

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

The Company uses significant judgements to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the standalone financial statements.

### **Note 3: Significant Accounting Policies**

#### **(i) Revenue Recognition**

The Company derives revenue primarily from Cinematic and Television Content Production and Distribution, Trading in Intellectual Property Rights of Films and Post Production activities. The Company identifies and evaluates each performance obligation under the contract. Revenue recognition is based on the delivery of performance obligations and an assessment of when control is transferred to the customer. Revenue is recognized either when the performance obligation in the contract has been performed ('point in time' recognition) or 'over time' as control of the performance obligation is transferred to the customer in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue generated from internet/ web series produced for the broadcasters is recognized over the period of the contract.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Interest income is recognized using the effective interest method.

Dividend income is recognized when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

#### **(ii) Government Grants**

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

#### **(iii) Foreign Currency Loans/Transactions**

##### **(a) Functional and presentation currency:**

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). These financial statements are presented in Indian Rupee (INR), which is company's functional and presentation currency.

##### **(b) Transactions and balances**

Transactions in Foreign currency are recorded at the rate prevailing on the date of when the amount is received or remitted. Foreign currency denominated monetary assets and liabilities are converted into rupee at the exchange rate prevailing on the balance sheet date; gains/ losses are reflected in the statement of profit and loss. Non-Monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-Monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

## ANNUAL REPORT 2020-2021

#### (a) Short Term Employee Benefits

Short term employee benefits are recognized as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

#### (b) Long Term Employee Benefits

The liability towards gratuity is not funded. The present value of these defined benefit obligations are ascertained by an independent actuarial valuation as per the requirement of IND AS 19- Employee Benefits. The liability recognized in the balance sheet is the present value of the defined benefit obligations on the balance sheet date, together with adjustments for unrecognized past service costs. Gains and losses through re-measurements of net defined benefit liability/(asset) are recognized in other comprehensive income. The effects of any plan amendments are recognized in the Statement of Profit & Loss.

### (v) Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and impairment loss, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Advances paid towards the acquisition of property, plant & equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and cost of assets not put to use before such date are disclosed under Capital work-in-progress.

Subsequent expenditure relating to property, plant & equipment is capitalized only when it is probable that future economic benefit associated with this will flow to the company and the cost of item can be measured reliably. Repairs and maintenance cost are recognized in statement of profit & loss when incurred. The cost and related accumulated depreciation are eliminated from financial statement upon sale or retirement of the asset and resultant gains and losses are recognized in the statement of profit & loss. Assets to be disposed off are reported at lower of carrying value or fair value less cost to sell.

Depreciation is provided for property, plant and equipment so as to expense the cost over their estimated useful lives based on evaluation. The estimated useful lives of property, plant & equipment is taken as prescribed under Schedule II of the Companies Act, 2013.

Asset Details	Useful Life
Office Premises	30 Years
Plant and Machinery (incl. Computers)	1 to 15 Years
Furniture and Fixtures	10 Years

Motor Car	8 Years

The estimated useful lives and residual value are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Cost excludes GST Input Tax Credit, Cenvat Credit, Sales Tax and Service Tax Credit, Custom Duty entitlement and such other levies / taxes. Depreciation on such assets is claimed on 'reduced' cost.

Gains or losses arising from the retirement or disposal of a tangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

### (vi) Impairment

#### (a) Financial assets (other than at fair value)

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a

financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(b) Non-Financial assets

**Tangible and intangible assets**

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

**(vii) Inventories**

(a) Consumables:

Consumables are valued at lower of cost and market value.

(b) Intellectual Property Rights (Copy Rights):

IPR of films are valued at lower of cost or net realizable value as certified by the Management.

(c) Under Production Films / Television Serials:

Cost of films are valued at actual cost incurred/ accrued which includes amount paid, bills settled and advance paid for which the bills are awaited.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and costs necessary to make the sale.

In case of films which are released during the year, the realization from the sale of rights are reduced from the cost of production and the balance cost if any, is carried forward till the time the negative rights of the films are not exploited. The excess or deficit of the cost of production after exploitation of "negative" rights will be treated as profit or loss in the profit & loss a/c as the case may be.

Inventory of Television Serials is valued at actual cost. The cost of content is amortized in the ratio of current revenue to expected total revenue. At the end of each accounting period, balance unamortized cost is compared with the net expected revenue. If net expected revenue is less than the unamortized cost, the same is written down to net expected revenue.

The Company is engaged in business of production of films wherein the expected Operating Cycle for production is in the range of 18 to 24 months. Accordingly Inventory (under production films) / Advances / Assets / Liabilities relating to film production are classified as Current Assets / Liabilities.

**(viii) Income Taxes**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognized in statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

**Current Income Taxes**

Income tax expense is the aggregate amount of Current tax. Current tax is the amount of Income Tax determined to be payable in respect of the taxable income for an accounting period or computed on the basis of the provisions of Section 115JB of Income Tax Act, 1961 by way of minimum alternate tax (MAT) at the prescribed percentage on the adjusted book profits of a year, when Income Tax liability under the normal method of tax payable basis works out either a lower amount or nil amount compared to the tax liability u/s 115 JB.

## ANNUAL REPORT 2020-2021

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction.

### Deferred Income Taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

The Company recognizes interest levied and penalties related to income tax assessments in interest expenses.

### (ix) Financial Instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

#### Financial assets

##### (a) Classification:

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or Other Comprehensive Income.

##### (b) Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (c) Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets. The Company has made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of equity investments not held for trading.

##### (d) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

(e) De-recognition of financial assets:

A financial asset is de-recognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognised.

(f) Where the Company has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset

(g) Cash and cash equivalents:

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

**Financial liabilities**

(a) Classification as debt or equity:

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

(b) Initial recognition and measurement:

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

(c) Subsequent measurement:

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

(d) Derecognition:

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

(e) Trade Payables & Other Current Liabilities

For trade payables and other payables maturing within one year from the balance sheet date, carrying amounts approximate fair value due to short maturity of these instruments.

(f) Security Deposit

Under the previous GAAP, interest free Security Deposit (that are refundable in cash) are recorded at their transaction value. Under the Ind AS all financial assets are required to be recognized at fair value. Accordingly, the Company has fair valued these Security Deposits under Ind AS. Difference between the fair value and the transaction value of Security Deposit has been recognized as deferred rent income. Deferred rent is recognized as income over period of deposit with corresponding recognition of interest expenses on the outstanding amount.

**(x) Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

### **(xi) Earnings per Share**

Basic earnings per share are computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares). For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### **(xii) Borrowing cost**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

### **(xiii) Provisions and Contingent Assets and Contingent Liabilities**

Provisions are recognised when the Company has a present legal or constructive obligation as result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of managements best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Provisions are not recognized for future operating losses.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises where a reliable estimate of the amount of the obligation cannot be made. Contingent assets are not recognized but are disclosed where an inflow of economic benefits is probable. The estimation of financial effect in respect of contingent liabilities and contingent assets wherever not practicable, is not disclosed and such fact is accordingly stated.

### **(xiv) Goods and Services Tax**

Goods and Services Tax (GST) liability is accounted on accrual basis. The Company is accounting liability for GST arising under reverse charge mechanism for various services availed by the company, at the time of booking of relevant expenditure. Credit for input GST is claimed as per appropriate laws, rules and regulations.

### **(xv) Leases**

#### **As a lessee**

The company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate.

Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### **Short-term leases and leases of low-value assets**

The company has elected not to recognize right-of-use assets and lease liabilities for short term leases of real estate properties and other assets that have a lease term of 12 months or less. The company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### **As a Lessor**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

#### **(xvi) Segment Reporting**

Operating segments are reported in a manner consistent with the reporting provided to the chief operating decision maker. The chief operating decision maker of the Company consists of the managing director and chief financial officer which assesses the financial performance and position of the Company, and makes strategic decisions.

#### **(xvii) Recent Indian Accounting Standards (IND AS)**

The Ministry of Corporate Affairs ("MCA"), notifies new standard or amendments to the existing standards.

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

##### **Balance Sheet:**

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

##### **Statement of profit and loss:**

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the standalone financial statements.

The amendments are extensive, and the Company will evaluate the same to give effect to them as required by law.

Salary escalation rate (p.a.)	8.00%	8.00%

(All amount in Rupees Thousand, unless otherwise stated)

**Sensitivity Analysis:**

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the change in defined benefit obligation and impact in percentage terms compared with the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points.

	Period Ended 31st March, 2021	
	Discount Rate	Salary Escalation Rate
Defined benefit obligation on increase in 50 bps	1,635.16	1,771.48
Impact of increase in 50 bps on DBO	-3.81%	4.21%
Defined benefit obligation on decrease in 50 bps	1,772.72	1,635.59
Impact of decrease in 50 bps on DBO	4.28%	-3.79%

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis.

### 38. Financial Instruments and Risk Factors

#### A. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, in the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk. The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price i.e. fair value of the consideration given or received.

#### Accounting classification and fair values

Carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy, are presented below. It does not include the fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

(Rs. in Thousand)

Particulars	Carrying Amount			Total	Fair Value
	FVPTL	FVOCI	Amortised Cost		
<b>Financial Assets</b>					
Trade Receivables	-	-	1,225.90 (253.73)	1,225.90 (253.73)	1,225.90 (253.73)
Cash & Cash Equivalent	-	-	4,642.31 (6,166.84)	4642.31 (6,166.84)	4,642.31 (6,166.84)
Bank Balances other than above	-	-	49,900.00 (55,000.00)	49,900.00 (55,000.00)	49,900.00 (55,000.00)
Loans	-	-	64,500.00 (65,000.00)	64,500.00 (65,000.00)	64,500.00 (65,000.00)
Other Financial Assets	-	-	1,817.73 (1,760.12)	1,817.73 (1,760.12)	1,817.73 (1,760.12)
<b>Financial Liabilities</b>					
Other Financial Liabilities	-	-	594.39 (593.55)	594.39 (593.55)	594.39 (593.55)
Trade Payable	-	-	829.60 (3,305.90)	829.60 (3,305.90)	829.60 (3,305.90)

Previous Year figures are given in brackets.

The carrying value of trade receivables, cash and cash equivalents, other bank balances, current loans, trade payables and other financial assets and liabilities are considered to be the same as their fair values due to their short-term nature. The fair value of non-current financial assets is not materially different than its carrying value.

The fair value of financial instruments as referred to in note above have been classified into three categories depending on the inputs used in valuation technique. The hierarchy gives highest priority to quoted prices in active market for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 measurement). The categories used are as follows:

**Level – 1:** Hierarchy includes financial instruments measured using quoted price. Mutual funds are valued at the closing NAV.

**Level – 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation technique which maximize the use of observable market data and rely as little as possible on entity – specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level – 2.

**Level – 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in Level – 3.

There are no financial assets except for Investment in shares which are fair valued. The Investment in equity shares which fall under level 3 are at Nil (Nil) value as on March 31st 2021 and March 31st 2020.
